Introduction

An important but seldom talked about cornerstone of Chester County's vibrant economy are the 30 or so publicly traded companies headquartered in the county.

As this guide attests, Chester County-based publicly traded companies fit no specific profile but rather, run the gamut in the development stage, industry, number of employees and annual sales.

Yet combined, Chester County-based publicly traded companies are an economic force to be reckoned with. Combined, the 30 companies based employ 145,000 people worldwide and generate a whopping \$138 billion in annual sales.

Who are these publicly traded companies and what do they do? Some, like Downingtown's DNB Financial and Exton-based West Pharmaceutical, are household names. Others remain largely unknown.

Take AmerisourceBergen (NYSE: ABC) described on page 7 of the Guide. The Chesterbrook-based company, founded in 2001, is one of the top three drug wholesalers in North America. The company's 26 distribution centers provide an essential link between pharmaceutical companies making drugs and the pharmacies, hospitals, doctors, mail order and other health providers that dispense those drugs.

With annual sales of \$119 billion, AmerisourceBergen is Chester County's only FORTUNE 500 company and Pennsylvania's largest corporation as well.

At the other end of the spectrum in annual sales, employees and the pharmaceutical food chain is tiny Malvern-based Recro Pharma (NASDAQ: REPH) found on page 25. Employing just 20 people, Recro Pharma develops and markets non-opioid therapeutics for the treatment of severe pain.

Founded in 2007, Recro recently acquired Alkermes, a Georgia-based competitor, adding a new line of pain-killers to the company's drug development pipeline as well as much needed manufacturing capacity and expertise.

In between giant AmerisourceBergen and fledgling Recro are a host of other publicly traded companies, all Chester County based and all, for the most, doing well having survived the economic turmoil of the last seven years.

This Guide To Publicly Traded Companies Headquartered In Chester County will be useful to an investor managing her portfolio, a CEO or VP of Sales looking to grow their business or any county resident actively seeking their next career position.

However you choose to use the Guide, thank you for being a loyal subscriber to VISTA Today, Chester County's most credible and current source of business news and events.

AmerisourceBergen, Inc.

Address: 1300 Morris Drive
Chesterbrook, PA 19087-5594
Phone Number: (610) 727-7000
<http://www.amerisourcebergen.com>

Industry: Wholesale - Distribution
Year Established: 2001

Description: AmerisourceBergen Corp., Chester County's only Fortune 500 Company, is the ultimate drug baron, as it is the key supplier for wholesale drugs in North America.

Its 26 distribution centers provide an essential link between drug producers and the pharmacies, hospitals, doctors, mail order and other health providers that dispense drugs.

The Pharmaceutical Distribution Service is split into two divisions, AmerisourceBergen Drug Corp and AmerisourceBergen Specialty Group. The first of these supplies both brand name and generic pharmaceuticals including over the counter health care products and home healthcare systems. AmerisourceBergen Specialty is focused on supplying specialized physicians, in particular those focused on oncology, and other niche health care providers such as dialysis clinics.

The company also provides advisory services through AmerisourceBergen Consulting Services ranging from reimbursement support programs to risk mitigation services. Its final service is World Courier, which provides transportation and logistical support.

Founded in 2001, it runs all operations from its headquarters in Chesterbrook, PA.

AMETEK Inc.

Address: 1100 Cassatt Road
Berwyn, PA 19312-1177
Phone Number: (610) 647-2121
<http://www.ametek.com>

Industry: Electronics Manufacturing
Year Established: 1930

Description: If you enjoy flying, then AMETEK Inc.(NYSE:AME) is probably the company keeping you in the air. AMETEK is a global manufacturer of electronic instruments and electromechanical devices with operations throughout the Americas, Europe and Asia.

The company splits its massive operations into two segments: Electronic Instruments Group and Electromechanical Group. The first designs and manufactures instrumentation for a wide variety of different applications, but its primary focus is on electronics used in the transportation industry. This includes critical safety equipment such as aircraft cockpit displays, airborne electronics that collate flight and engine data and sensors to monitor key information such as temperature for commercial airliners and jet engine manufacturers.

The Electromechanical Group manufactures more down to earth products such as motors for vacuum cleaners, heat exchangers and thermal management systems.

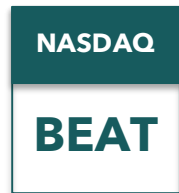

Founded in 1930, it is headquartered in Berwyn, PA.

BioTelemetry Inc.

Address: 1000 Cedar Hollow Road
Malvern, PA 19355-2300
Phone Number: (610) 729-7000
<https://www.biotelinc.com/>

Industry: Medical Equipment Manufacturing
Year Established: 2013

Description: Biotelemetry, Inc. is guaranteed to keep your heart pumping, as it is focused on developing wireless medical technologies to deliver health information.

The company is divided into three distinct sectors: Patient, Product and Research Services. The Patient Service segment is concerned with the diagnosis and monitoring of cardiac arrhythmias, heart murmurs or other heart rhythm disorders. It provides the majority of these services through advanced mobile cardiac outpatient telemetry event and holter services. The Product Services segment is focused on the development, manufacturing and testing of specialized medical devices that are marketed to healthcare providers, clinic and hospitals.

The Research Services segment helps companies engaged in developing and testing new drugs or medical devices by providing cardiac safety monitoring services for clinical trials and other types of research projects as required.

Founded in 2013, its operations are run from its headquarters in Malvern, PA.

Egalet Corp

Address: 460 E Swedesford Road
Wayne, PA 19087-1801
(610) 833-4200
<http://www.egalet.com>

Industry: Pharmaceuticals
Year Established: 2010

Description: Egalet Corp is the company trying to keep you pain free.

As a specialty pharmaceutical company, Egalet Corporation engages in developing, manufacturing, and commercializing medicines for patients with acute and/or chronic pain. Egalet has licensed two approved pain products: SPRIX Nasal Spray and OXAYDO.

As a non-steroidal anti-inflammatory drug, SPRINX Nasal Spray is indicated in adult patients for the short-term management of moderate to moderately severe pain that requires analgesia at the opioid level. An immediate-release oxycodone product formulated to deter abuse via snorting, OXAYDO is used for the management of acute and chronic moderate to severe pain where an opioid is appropriate.

Using its proprietary Guardian Technology, the company also develops a pipeline of clinical-stage, opioid-based product candidates specifically designed to deter abuse by physical and chemical manipulation. Its product candidates include Egalet-001 and Egalet-002 for the treatment of moderate and severe pain.

Founded in 2010, the company is headquartered in Wayne, PA.

Industry: Pharmaceutical Preparation
Year Established: 2007

Description: Recro Pharma aims to keep your post-op recovery as painless as possible. A clinical stage specialty pharmaceutical company, Recro Pharma, engages in development of non-opioid therapeutics for the treatment of pain, initially for acute pain following surgery.

Their main product, intranasal formulation of Dexmedetomidine (Dex), used for the treatment of post-operative pain and cancer breakthrough pain has completed a placebo controlled trial demonstrating effective pain relief. Dex, an alpha-2 adrenergic agonists class drug, is a commercial injectable drug sold under the brand name Precedex in United States and under the brand name Dexdor in Europe.

Another one of the company's products is Fadolmidine(Fado), used for post-operative and/or neuropathic pain. Recro Pharma Inc has signed a license agreement with Orion Corporation for the development and commercialization of both Dex and Fado products.

Founded in 2007, the company is headquartered in Malvern, PA.

Teleflex Inc

Address: 550 E Swedesford Road
Wayne, PA 19087-1601
(610) 225-6800
<http://www.teleflex.com>

Industry: Surgical/Medical Instruments Manufacturer
Year Established: 1943

Description: Teleflex Inc. is the company making your doctor's job easier. A medical technology company, Teleflex designs, develops, manufactures, and supplies single-use medical devices for common diagnostic and therapeutic procedures in critical care and surgical applications throughout the world.

The company's products are categorized in four main groups of Critical Care, Surgical Care, Cardiac Care, and OEM and Development Services. Among other things, Critical Care segment provides vascular access products for critical care therapies, as well as anesthesia products such as airway management products and pain management products.

Teleflex's Surgical Care segment offers ligation clips and closure products, reusable hand-held instruments, appliers and sutures used in surgical procedures, and access ports for use in minimally invasive laparoscopic surgical procedures, among others. Cardiac Care segment offers diagnostic catheters and capital equipment, while the OEM and Development Services segment develops and markets original equipment.

Founded in 1943, the company is headquartered in Wayne, PA.

Tetra Logic Pharmaceuticals

Address: 343 Phoenixville Pike
Malvern, PA 19355-9603
(610) 889-9900
<http://www.tetralogicpharma.com>

Industry: Pharmaceuticals
Year Established: 2006

Description: TetraLogic Pharmaceuticals try to make the world a better place by fighting cancer.

A clinical-stage biopharmaceutical company, TetraLogic Pharmaceuticals Corporation is focused on discovering, acquiring and developing innovative product candidates to treat cancer and infectious diseases. Its clinical-stage product candidate, Birinapant, is designed to mimic the activity of an endogenous protein, the Second Mitochondrial Activator of Caspases, or SMAC, and is in Phase II clinical trial administered with azacitidine for the treatment of myelodysplastic syndromes. TetraLogic Pharmaceuticals' pre-clinical programs also encompass Phase I/II open-label, non-randomized clinical trial of Birinapant administered with conatumumab in third-line ovarian cancer.

Additionally, the company's clinical-stage product candidate, suberohydroxamic acid 4-methoxycarbonyl phenyl ester, is in Phase II clinical trial for the treatment of early-stage cutaneous T-cell lymphoma. Formerly known as Gentara Corporation, the firm changed its name to TetraLogic Pharmaceuticals Corporation at the beginning of 2006.

Founded in 2001, the company is headquartered in Malvern, PA.

Vishay Intertechnology Inc

Address: 63 Lancaster Avenue
Malvern, PA 19355-2120
(610) 644-1300
<http://www.vishay.com>

Industry: Semiconductors Manufacturer
Year Established: 1962

Description: If you are looking for a one stop shop for electronic components, Vishay Intertechnology Inc is what you need.

A manufacturer and supplier of discrete semiconductors and passive components Vishay Intertechnology, Inc. operates in five main segments: MOSFETs, Diodes, Optoelectronic Components, Resistors and Inductors, and Capacitors.

The MOSFETs segment provides low and medium voltage TrenchFET, high voltage Super Junction, and high-voltage planar metal-oxide semiconductor field-effect transistors, among other products.

The Diode segment offers rectifiers, protection diodes, small signal diodes, thyristors and silicon-controlled rectifiers, and power modules, while the Optoelectronic Components segment offers standard and customer specific optoelectronic components.

The Resistors and Inductors segment offers film, wirewound, crowbar and steel blade, power metal strip, variable, and non-linear resistors, battery management shunts, thermo fuses, chip fuses, and many other products.

Finally, the Capacitors segment offers tantalum, ceramic, film, heavy-current, power, and aluminum electrolytic capacitors.

Founded in 1962, the company is headquartered in Malvern, Pennsylvania.

Vishay Precision Group Inc

Address: 3 Great Valley Parkway
Malvern, PA 19355-1410
(484) 321-5300
<http://www.vpgsensors.com>

Industry: Sensors Manufacturer
Year Established: 2010

Description: If you are in need of sensors and sensor based technologies, then look no further than Vishay Precision Group.

A designer, manufacturer and marketer of components based on its resistive foil technology, sensors, and sensor-based systems, Vishay Precision Group specializes in the growing markets of stress, force, weight, pressure and current measurements.

The company operates through its three main divisions: Foil Technology Products, Force Sensors, and Weighing and Control Systems. Among others, their products include foil resistors, foil strain gages, weighing modules, instruments, load cells, weighing and control systems, as well as sensors which convert mechanical inputs into an electronic signal for display, processing, interpretation, or control by its instrumentation and systems products.

The company's products are based on its proprietary technology in the US, the UK, Europe, Canada and Israel.

Vishay Intertechnology completed the spin-off of Vishay Precision Group July 2010. The company is headquartered in Malvern, PA.

West Pharmaceutical Services Inc

Address: 530 Herman O West Drive
Exton, PA 19341-1147
(610) 594-2900
<http://www.westpharma.com>

Industry: Pharmaceutical Packaging Manufacturer
Year Established: 1923

Description: Always by your side, West Pharmaceutical Services is fighting for a better world. A manufacturer company, West develops, manufactures, and sells components and systems for the packaging and delivery of injectable drugs, and delivery system components for the pharmaceutical, healthcare, and consumer products industries.

Two main divisions of the company are Pharmaceutical Packaging Systems and Pharmaceutical Delivery Systems. The Pharmaceutical Packaging Systems division provides packaging components and systems for injectable drug delivery, contract analytical laboratory services for testing and evaluating primary drug-packaging components with the contained drug formulation, as well as specialized testing for complete drug delivery systems.

The Pharmaceutical Delivery Systems division provides multi-component systems for drug administration, as well as safety and administration systems, customer contract-manufacturing and assembly solutions, and device assembly used to manufacture customer-owned components.

Its sales force and distribution network are the primary way of selling their products.

Founded in 1923, the company is headquartered in Exton, PA.

WPCS International Inc

Address: 600 Eagleview Blvd
Exton, PA 19341-1121
(484) 359-7228
<http://www.wpcs.com>

Industry: Wireless Communication
Year Established: 1997

Description: If you like using your mobile devices wherever you go, WPCS International Incorporated is the company making it possible.

A provider of engineering services for communications infrastructure and digital currency trading platform for trading digital currencies, WPCS International Inc. operates in two main segments: Communications Infrastructure contracting services and Bitcoin trading platform.

The first segment provides low voltage communication infrastructure services in public services, energy, healthcare, and corporate enterprise markets throughout the world. The second segment provides BTX trading platform. The platform offers trading algorithms and strategies, and trading integration against the Bitcoin exchanges which allow the user to see liquidity across various platforms, route orders to the platforms, as well as identify possible arbitrage opportunities across platforms.

Another service offered is Celery, an online hosted wallet that deploys direct bank transfers to allow its customers the use of digital currency.

Founded in 1997, the company is headquartered in Exton, PA.
